EXPERIENCE

Chetu Company

Software Engineer   *Jan 2024 - Current, Noida, UP*

Gambling App

- I developed a casino-style web application using ReactJS and Tailwind CSS, focusing on responsive design and user engagement.
- Integrated lazy loading and dynamic routing using React Router DOM for optimized performance and seamless navigation.
- Enhanced version control proficiency by mastering Git commands for efficient collaboration and project management.

Medical App

- Built a medical web application to generate and manage reports, leveraging TypeScript for robust and scalable development.
- Utilized AWS Lambda for creating serverless functions and AWS Amplify for app modifications and seamless deployment.
- Designed a responsive interface using SCSS and implemented data storage solutions with DynamoDB for efficient data management.

Chat App

- Developed a chat-based support system similar to Zomato, allowing users to fill in details before connecting with an executive, using ReactJS and functional components.
- Designed and implemented the entire front-end structure and user interface, ensuring an intuitive and seamless user experience.
- Received appreciation for exceptional work as a front-end developer, demonstrating strong skills in UI development and ReactJS.

PROJECTS

VeggieBites - Vegetarian Recipe Finder

- Built a responsive recipe finder app using React, TypeScript, and Tailwind CSS with dual-theme support.
- Integrated smart filters, detailed recipe pages, and nutritional metrics.
- Designed smooth animations and a modern user interface for a better user experience.

Weather App

- Developed a responsive weather application using React, TypeScript, and Tailwind CSS with light/dark mode support.
- Implemented real-time weather updates, a 5-day forecast, and detailed metrics such as humidity and wind speed.
- Designed a modern glassmorphism UI with location-based search functionality.

SUMMARY

Manu Kaushik is a skilled software engineer with experience in developing scalable web applications using ReactJS, TypeScript, and modern CSS frameworks. He is proficient in Git and responsive design with a proven track record of delivering high-quality solutions. Known for his strong problem-solving skills, dedication, and exceptional user experience development, he has earned recognition for innovative contributions to projects such as casino-style gambling apps, medical reporting platforms, and chat-based support systems.

SKILLS

Back End	NodeJs
Front End	HTML, CSS, JavaScript, React JS, Typescript
Styling	Bootstrap, Tailwind CSS
Misc.	AWS (Amplify, Cognito, and lambda function)
Soft Skills	Deliver results, Resilience, Attentiveness

EDUCATION

MRIIRS University   **Faridabad, Haryana**

Bachelor of Technology - CSE
